Allergenen

Gluten: is de naam van een groep eiwitten die van nature voorkomen in de kiemwitten van sommige granen en in graan producten. Gluten is onder meer aanwezig in tarwesoorten als gewone tarwe, durumtarwe (of harde tarwe), tritordeum en spelt, evenals in rogge en gerst. Gluten zitten ook in producten die van deze granen zijn gemaakt.

Lactose: ook wel melksuiker genoemd, is een suiker die voorkomt in de melk van alle zoogdieren. Daarom heet het ook wel melksuiker. Lactose zit dus ook in de meeste zuivelproducten. Melksuiker komt ook voor in producten waarin melk, melkpoeder of bepaalde bestanddelen uit melk zijn verwerkt.
