Classic Espresso Blend

The name "Doppio" refers to the superior double-shot espresso and to the founders' memories of their road trips through Italy, where a caffè doppio was always a moment of connection.

In Italy, the birthplace of espresso, our passion for coffee also originated. Our house blend is carefully crafted in Italy from some of the world's finest coffees from Latin America and East Asia. This way, in every cup, you taste the balance, the craftsmanship, and a touch of that Italian coffee culture where it all began for us.
